

Flower Delivery Preparation

After the 10:00 a.m. service is concluded the flowers can be removed from the sanctuary.

Take the entire vase to the sacristy.

Prepare a glass vase in which the flowers and oasis are to be placed.

Remove the flowers and oasis from the liner (green) and place in the vase. **Do not take the liner!**

In the top wide drawer there is thin white or green paper which should be used to protect the flowers in the winter. A stapler is in the drawer as well.

A white card which identifies these as sanctuary flowers can be found in the same drawer (or one may be left by the minister on the counter with the recipient's name/address).

Occasionally the person who donated the flowers wishes to take them home or to someone special. It is still appropriate in this situation for the Diaconate volunteer to offer to prepare them for that individual/family (or at least remind them not to take the liner!).
